Notice: Rules for the rice export exemptions

[P1] The Realm Trade Ministry has published the rules for the exemptions in the notice of 5 December 2026.

[P2] Premium aromatic rice is rice that meets the ministry's aroma and grade standard. It must be packed and labelled separately from ordinary white rice.

[P3] A government-to-government contract qualifies only if it was signed before 1 October 2026 and names the buyer, the volume and the delivery period.

[P4] The contract volumes may continue after the ban. The exporter must present the contract and a matching shipment declaration at the port.

[P5] Sales outside the contract, including spot sales to the same buyer, are treated as ordinary white rice and are prohibited.

[P6] The ministry will review the exemption list if the domestic supply position changes.

[P7] The rules are intended to give the ministry a clear record of each shipment and of the buyer who receives it.

[P8] Exporters should keep copies of the contract and of the shipping documents that match each approved volume.

[P9] The ministry will publish any change to the exemption list in the same gazette.

[P10] Signed: Priya Lund, trade official, Vanir.
