Wheat prices steady as imports arrive

[P1] Wheat prices in Midgard were steady this week as imports arrived on schedule.

[P2] Millers said stocks were adequate and that the quality of the latest cargoes was good.

[P3] Midgard imports wheat from several suppliers, and the market is separate from the rice trade.

[P4] Retail prices for bread and flour were unchanged from the previous month.

[P5] Millers said the latest cargoes were of good quality and that flour output was normal.

[P6] Retailers said bread prices had not changed, though they were watching energy costs.

[P7] Midgard imports wheat from several suppliers, and the market is separate from the rice trade.

[P8] A trade group said stocks were sufficient for the winter and that no shortage was expected.

[P9] Traders said the harvest in the main supplier countries had been adequate.

[P10] The government said it was monitoring food prices but saw no need for action.

[P11] Analysts said the wheat market was calm and that attention was focused elsewhere.

[P12] A baker said demand for bread was steady and that customers were not buying more than usual.

[P13] The port said wheat cargoes were arriving on schedule.

[P14] Prices are expected to stay stable in the near term.

[P15] Traders said they expected the market to stay calm through the winter.
