Swimming club wins regional trophy

[P1] A swimming club from Tolan has won a regional trophy after a close final in the main pool. The team finished two points ahead of its nearest rival, with strong results in the relay events.

[P2] The club has thirty junior members and trains three evenings a week. Coaches said the win was built on consistent attendance and on a group of older swimmers who help with the younger ones.

[P3] The trophy will be displayed at the pool for a month. The club plans to use a small grant to repair the starting blocks and to pay for extra lane time during the winter.
