Notice: White rice export ban from 5 December

[P1] The Realm Trade Ministry gives notice that exports of ordinary white rice are prohibited with immediate effect from 5 December 2026.

[P2] The prohibition follows a harvest 14 percent below the previous year and a rise of about 35 percent in domestic rice prices by late November.

[P3] Two categories are exempt. Premium aromatic rice may continue to be exported. Government-to-government contracts signed before 1 October 2026 may also continue.

[P4] The exemption for government-to-government contracts applies only to the volumes and buyers named in those contracts. It does not cover new contracts or spot sales.

[P5] Exporters must declare the category of every shipment at Vanir Rice Port. Shipments that do not meet the exemption rules will not be cleared.

[P6] The ministry will publish detailed exemption rules within three days.

[P7] The notice is the first formal step in the new policy and follows a period of consultation with producers and buyers.

[P8] Ministry officials will publish further guidance on the exemption process, including the documents exporters must present at the port.

[P9] Firms that ship rice should review their forward purchases and prepare the paperwork well before the first cargo is loaded.

[P10] Signed: Priya Lund, trade official, Vanir.
